99337	Comprehensive	Comprehensive	Mod-High	Mod-High	60	148.90

For new patients, all three components of the service (exam, history, and decision-making) are required and must be documented in the note. For established patients, two of the three components are required.

*When more than 50% of face-to-face time during a visit is spent in health related counseling activities, the visit level associated with the total face-to-face time for the visit (rather than the other components) should be used to determine the code.

*If over 30 minutes more than the typical face-to-face time is required on-site, prolonged codes can also be billed. These are 99354 for an additional 30-74 minutes and 99355 for 75-104 minutes.
